### NEW! MVP EZ APP & CLOUD-MANAGEMENT SERVICES FOR TRILOGY NETWORKX LOCKS

Unlock new lucrative service opportunities with the **MVP EZ App**—the easiest way to add great new customer services to your accounts, right along with the Trilogix Networkx Locks you know and install already. Designed for locksmiths, this brand new App allows you to easily create, configure and control a custom, remotely-managed access control system of **Trilogix Networkx locks, gateways and panels**, each enrolled in the system simply by scanning in their QR code, using your phone's camera.

It's truly all in the App and well, "E-Z". There's no complicated programming, computers or databases required – just an easy graphical, way to add and manage doors, users and their schedules. Up and running in no time—whether it's a couple doors and users for a small or medium business or more, with MVP EZ everything is quick and straightforward. And you can even offer customers an option of having their own Admin function app, with lock-down, or unlock instantly in an emergency plus automatically deployed emergency text alerts to employees and more.

**MVP EZ** puts a new business opportunity right in the palm of your hand—an easy, secure, cloud-based service that brings in incremental steady, recurring revenue above and beyond the lock installations. With a simple, low flat- monthly rate per door, it's effortless to sell, easy to quote, and budget-friendly for your customers. And as doors and accounts grow, so does your revenue—month after month, year after year.
